

INDUSTRIAL MESH VEST (MV1254T3)

This Industrial Mesh Vest is ideal for work environments that require high visibility. With a 155 sq in of retro reflective material and 217 sq in of high visibility material, this PFD meets ANSI Class I (2020) and CSA Z96-15 Class 1 (R2020) visibility standards on its own. The large armholes and mesh shoulders maximize mobility, cooling and comfort, and two large front pockets are secure with Velcro® closures. Updated to include pass through for fall arrest harness compatibility. S/M & L/XL, 2XL/3X sizes are approved to Harmonized Level 70 standard (USCG and TC). The 4XL/5XL size maintains UL1123 (USCG Type III) approval

Provides a minimum of 155 sq in of reflective material - meets ANSI 107-2020 Class 1 / CSA

Mesh shoulders offers mobility and comfort

Sizes S/M & L/XL, 2XL/3XL are approved to Harmonized Level 70

Pass through in the back for fall arrest harness compatibility

4XL/5XL size is UL1123 (USCG Type III) approved and only available in USA.

ANSI fabrics are more UV sensitive, and the fabric's visibility can decrease after extended exposure to UV rays

High waist reduces interference with tools and duty belts

Large front pockets with Velcro® closure

COLOR ■ Fluorescent Yellow Green

SIZE S/M & L/XL, 2XL/3XL are approved to Harmonized Level 70 (USCG /TC APPROVED) standards
4XL/5XL size is UL1123 (USCG Type III) approved and only available in USA.
